

# Instructions for Downloading WinDVD

In Order to Play DVDs on your Teacher Computer

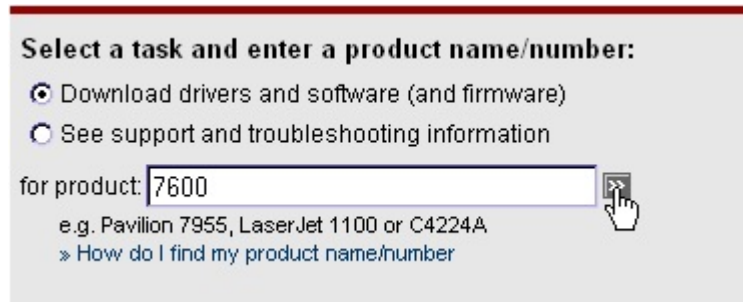

Our teacher computers did not come with the software needed to play a DVD. The software can be downloaded from the Hewlett Packard web site. Below are the instructions on how to download it. If you would prefer, I can download it for you....just let me know.

1. Open Internet Explorer and go to <http://www.hp.com>

2. On the left, click on Software & Driver Downloads

3. Key in the model number of our teacher computers, 7600, then click on the double arrows

4. Click on the style type:

5. Click on the operation system: Microsoft Windows XP Professional

6. At the top search window, key in windvd and click on the double arrows

7. Click on the top one listed:

▼ Score	Date	Title
93	28 Nov 2005	<a href="#">InterVideo WinDVD Player - HP Business Support Center - Software Drivers (51.1K) Version 5.0.11.662 A - This package contains the InterVideo WinDVD Player.</a>

8. Click on the Download button:

**Type:** Software - Multimedia  
**Version:** 5.0.11.662 A (28 Nov 2005)  
**Operating System(s):** Microsoft Windows 2000, Microsoft Windows XP, Microsoft Windows XP Home Edition, Microsoft Windows XP Media Center, Microsoft Windows XP Professional, Microsoft Windows XP Tablet PC Edition  
**File name:** sp31763.exe (30 MB) **Download**

9. When I do a download, I always save it to the Desktop:

a. Click on Save

b. Browse to find the Desktop

c. Click on Save

10. Once it is finished downloading, find it on the Desktop and double click on it:

11. Click on Run

12. Click on Next

13. Put a dot in front of "I Accept" then click on Next

14. Wait a moment; it will look like nothing is happening. Then a box comes up and click on Next

15. Click on Yes, then Next, and Next

16. It will show a dark blue progress bar as the program loads.

17. Click on Next, then Finish

---

The program is now loaded. Place a DVD in the computer's DVD drive.

1. A box comes up with this highlighted: Click OK

2. You are then given the option to register online. You can decide what you want to do, but I put a dot in front of "Do not display this dialog again, then clicked Continue

3. The InterVideo WinDVD program will then open. You may have a smaller screen open that does not take up the full screen and below it will be the WinDVD toolbar.

Your options:

a. Play full screen. (To escape full screen, hit the Esc key on your keyboard)

b. Minimize the screen. (This will put down on your task bar, but you can still hear the audio)

c. Exit the screen. (This will completely close the screen)

If you want to play the DVD again, just open the DVD drive door and close it again and it will open the program again. On the WinDVD toolbar, you can rewind, fast forward, stop and play, etc.
