

Creating a Jeopardy Game

Open the Jeopardy template at <http://teach.fcps.net/trt10/Documents/jeopardytemplate25.ppt>

Before you begin, let's save it with a different name so that you don't replace the template with your new game. To do this, click FILE and then SAVE AS (not save) and rename it from jeopardy template 25.ppt to whatever the topic of this game is.

Click on Slide #4 on the left side of the window.

Instructions for using this template.

- **Remember this is Jeopardy, so where I have written “Answer” this is the prompt the students will see, and where I have “Question” should be the student’s response.**
- **To enter your questions and answers, click once on the text on the slide, then highlight and just type over what’s there to replace it. If you hit Delete or Backspace, it sometimes makes the text box disappear.**
- **When clicking on the slide to move to the next appropriate slide, be sure you see the hand, not the arrow. (If you put your cursor over a text box, it will be an arrow and *WILL NOT* take you to the right location.)**

You will then see the board with the categories and choices. Click once on the words “Category A”. When you see the text box appear you can highlight that text and type in your replacement. Do this for each of the category headings.

Then click on the Slide 5 and in the same manner as above, replace that text with the Answer (remember this is jeopardy, we give the students the answer and have them give us the question in return) that you want to be the 10 point answer for the first category.

Listed below are the slide numbers as they match up to the categories so that you can match the answers and questions on the appropriate slides.

Category	Amount of Points	Answer Slide #	Question Slide #

Be sure to save what you have done. (Since we've already saved it when we began, this time you can just hit the save button  on the toolbar.)

Then go back and play the game yourself (by clicking on "View Show" in the "Slide Show" menu) to make sure that the correct answers and questions are together. **Note: When running the game, to go from the answer slide to the question side or back to the game board, click somewhere in the blue border of the slide.**
